Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs that we provide Service Excellence (Goal 1) and Community Services (Goal 6). The recommended action will help meet these goals by providing more reliable bridge infrastructure for the traveling public during and immediately following seismic events.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

The estimated construction cost to complete this project is in the range of \$320,000 to \$375,000.

This project will be administered under the Highway Bridge Program as covered by Agreement 76078 with the State of California. Under this program, Federal funds allocated to local agencies are used to finance a portion of the qualifying costs of the bridge seismic retrofit projects. The remaining portion of the costs of the project will be funded with State Proposition 1B funds. Qualifying costs are apportioned 88.53 percent Federal and 11.47 percent Proposition 1B. Funding for this project is included in the Fiscal Year 2007-08 Road Fund Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

This project, to contract for the seismic strengthening of an existing County bridge, is part of an ongoing program to retrofit City and County bridges to reduce the potential for failure during an earthquake. It will be advertised in accordance with Section 20392 of the Public Contract Code.

Jurisdiction for construction has been received from the Cities of Compton and Paramount.

This project is to be completed in 70 working days. It is estimated the work will start in April and be completed in August 2008.

The plans and specifications include the contractual provisions, methods, and material requirements necessary for this project and are on file with the Department of Public Works. The contract agreement will be in the form previously approved by County Counsel.

As required by your Board, language has been incorporated into the project specifications stating that the contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws.

ENVIRONMENTAL DOCUMENTATION

This seismic retrofit project is statutorily exempt from the provisions of the California Environmental Quality Act pursuant to Section 21080.16 of the Public Resources Code.

CONTRACTING PROCESS

This project will be contracted on an open competitive bid basis. The contract will be awarded to the lowest responsible bidder meeting the criteria established by your Board and the California Public Contract Code.

To increase contractor awareness of our program to contract work to the private sector, this project will be listed on the County website for upcoming bids.

To ensure that the contract is awarded to a responsible contractor with a satisfactory history of performance, bidders are required to report False Claims Act violations, labor law/payroll violations, debarments, civil litigation history, and prior criminal convictions. The information reported will be considered before making a recommendation to award.

The project specifications contain provisions requiring the contractor to (1) comply with the County's Child Support Compliance Program, (2) report solicitations of improper consideration by County employees and allowing the County to terminate the contract if it is found that the contractor offered or gave improper consideration to County employees, (3) comply with the requirements of the County's Contractor Employee Jury Service Program, and (4) comply with the Newborn Abandonment Law (Safely Surrendered Baby Law).

The project specifications also contain a provision that, should the contractor require additional or replacement personnel to fill employment openings, consideration shall be given to hiring qualified participants in the County's Greater Avenues for Independence and General Relief Opportunities for Work Programs.

These goals are applicable to all the Contractor's construction work (whether or not it is Federal or Federally assisted) performed in the covered area.

The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade, and the contractor shall make a good faith effort to employ minorities and females evenly on each of its projects. The transfer of minority or female employees or trainees from contractor to contractor or from project to project for the sole purpose of meeting the contractor's goals shall be a violation of the contract, the Executive Order, and the regulations in 41 CFR, Part 60-4. A responsible bidder is a bidder who has demonstrated the attribute of trustworthiness, as well as quality, fitness, capacity, and experience to satisfactorily perform the contract. It is the County's policy to conduct business only with responsible contractors.

The successful bidder will be required to fully comply with all applicable State and Federal reporting requirements relating to employment reporting for its employees and comply with all lawfully served Wage and Earnings Assignment Orders and Notice of Assignment and continue to maintain compliance throughout the duration of the contract. As provided for in Section 22300 of the California Public Contract Code, the contractor may substitute securities for any monies withheld by the Department of Public Works to ensure performance under the contract or enter into an escrow agreement for payment of such monies to an escrow agent.
